Correo: admin@proyectotomca.com

Figure 1 consists of 16 scatter plots arranged in a 4x4 grid. The rows represent four countries: USA, Canada, UK, and Australia. The columns represent four years: 1980, 1990, 2000, and 2010. Each plot shows the relationship between the number of children (x-axis) and the number of parents (y-axis). The plots show a positive correlation between the number of children and the number of parents, with the slope of the relationship increasing over time and varying by country.
